Nationality: Pakistani

ABOUT ME

Undergraduate Mathematics student with strong interests in Applied Mathematics, Mathematical Modeling, Machine Learning, and Deep Learning. Curious about how mathematical ideas and computational methods can be used to understand and solve real world problems. Aspiring to pursue a Master's degree in Computational Mathematics to build strong skills in scientific computing, numerical methods, and data-driven modeling.

EDUCATION AND TRAINING

[15/08/2023 – Current]

Bachelor of Science in Mathematics

Sukkur IBA University, 2.87/4.0

PUBLICATIONS

[2026]

Understanding Numerical Techniques: From Accurate Solutions to real world Applications

Reference: January 2026, Numerical and Applied Mathematics Journal

In this publication, I worked in the field of Applied Mathematics, where I discussed numerical techniques. These techniques are not only used to obtain accurate solutions, but they also play an important role in solving real-world problems.

PROJECTS

[05/12/2025 – 05/12/2025]

Complex Potential and Flow past Cylinder

I Worked on a complex analysis project modeling potential flow past a cylinder using complex potentials, including stream functions, stagnation points, velocity analysis, and conformal mappings such as the Joukowski transform.

WORK EXPERIENCE

International students Network

City: Sukkur | **Country:** Pakistan

[10/09/2025 – 10/02/2026]

Ordinary ambassador

Support and welcome new international students and help them adjust to university life.

Provide guidance about academic resources.

Encourage community building and networking among international students.

Skill4U

City: Sukkur | **Country:** Pakistan

[10/09/2025 – 10/10/2025]

Ambassador (International Virtual AI Conference)

Served as an Ambassador for the International AI Conference, promoting participation, sharing event information, and assisting attendees with registration and engagement.

CodeAlpha

Country: Pakistan

[20/01/2026 – 20/02/2026]

Internship (Python programming)

Worked as a Python Intern at CodeAlpha for one month, where I performed assigned tasks and gained hands-on programming experience.

VOLUNTEERING

[17/09/2024 – 15/08/2025]

Executive member (Mathematics Society) Sukkur IBA university

Worked as an Executive Member of the Mathematics Society at Sukkur IBA University, where we organized various workshops and events. These included a Fibonacci Sequence workshop, a Pi Day celebration, and the STEM Fest Mathematics Olympiad.

[16/03/2026 – 17/03/2026]

PLF (Pakistan Literature Festival) Sukkur IBA university

Served as a volunteer at the Pakistan Literature Festival (PLF), a two-day event held at Sukkur IBA University, where I assisted attendees with seating and provided general support.

CERTIFICATIONS

[Saylor Academy, 15/07/2025]

Introduction to Statistics

Learned data analysis concepts including frequency tables, mean, median, mode, variance, covariance, correlation, probability, and normal distribution. Gained skills in plotting pie charts, histograms, scatter plots, and summarizing data.

[DataCamp, 07/08/2025]

Intermediate Python

Advanced Python course enhancing programming efficiency and problem-solving, covering data structures, functions, modules, file and error handling, OOP concepts, and practical libraries for real-world applications.

[Uniathena, 05/01/2026]

Basics in Machine learning

In this course , I Learned the fundamentals of Machine Learning, including types of learning, model workflow, and introductory supervised algorithms like Naive Bayes and Regression.

[AWS, 24/03/2026]

Fundamentals of Machine learning and Artificial intelligence

A foundational course covering essential concepts of Machine Learning and Artificial Intelligence, with a focus on data understanding, core algorithms, and practical applications of intelligent systems in real-world scenarios.

[Linkdn, 04/06/2025]

Workloads and Machine learning on Azure

Experienced in deploying and managing scalable cloud and ML solutions on Microsoft Azure. Skilled in secure cloud architecture, end-to-end ML pipelines, and delivering automated, data-driven AI insights.

[IBM, 06/08/2025]

Machine learning and Deep learning

Practical ML and Deep Learning course covering core algorithms and neural networks, with hands-on model development using Python, Scikit-learn, and TensorFlow/Keras.

[National Association of state
Boards of Accountancy, 01/01/20
26]

Introduction to Artificial intelligence

A foundational overview of Artificial Intelligence, focusing on how machines simulate human intelligence through data, algorithms, and learning models. Covers core concepts such as problem-solving, machine learning, and real-world applications of AI in modern technology.

CONFERENCES AND SEMINARS

[03/11/2026]

Publishing Excellence: A professional Guide to international Journals Sukkur IBA university

Gained insights into strategies for successful research publication and improving manuscript quality. Learned best practices for selecting journals and enhancing the impact of scientific work.

[10/02/2026 – 10/02/2026]

IELTS introductory Sukkur IBA university

Participated in an IELTS introductory seminar to understand exam format, scoring criteria, and effective preparation techniques.

[03/05/2025 – 03/05/2025] **Scientific writing (Latex)** Sukkur IBA University

Attended a one-day LaTeX workshop covering document preparation, mathematical expressions, tables, figures, and bibliographies, with hands-on exercises for academic reporting.

[11/02/2026 – 11/02/2026] **Microsoft Certified:Power platform App maker Associate** Sukkur IBA University

Experienced in Microsoft Power Platform, leveraging Power BI, Power Apps, Power Automate, and Power Virtual Agents to build applications, automate processes, and create interactive data solutions.

HONOURS AND AWARDS

[25/09/2025] **National Science Olympiad in Mathematics Category** **Awarding institution:** Great Future Pakistan

Got 2nd Position in National Science Olympiad in Mathematics Category.

[04/09/2025] **IAAC (International Astronomy and Astrophysics Competition)** **Awarding institution:** IAAC

Participated in the International Astronomy and Astrophysics Competition (IAAC), advancing through all three rounds and achieving a global top 25% ranking, demonstrating strong skills in astrophysics and problem-solving.

SKILLS

Microsoft Office | Google Drive

Programming language

Python programming

Scientific Documents

Latex

HOBBIES AND INTERESTS

Playing Cricket, Chess, watching Movies, Reading Books

LANGUAGE SKILLS

Mother tongue(s): Saraiki
